Dear Mr Haslam

Trafford Local Plan - Land Allocations Consultation Draft

On behalf of our clients, Essar Oil (UK) Ltd, Bell Ingram monitors the progress of Development Plans along the route of the Stanlow – Carrington pipeline. We wrote to the Council in a letters dated 19 September 2011 to remind you of our client's pipeline interests and the requirement for safeguarding the route which passes through the Council area.

Whilst the Land Allocations Consultation Draft is available for consultation we are taking the opportunity to remind you of the need to take the section of Major Accident Hazard pipelines into account during the plan making process. Without the map based information on site allocations it is not possible for us to comment in any detail.

If you have any concerns that your records may not be up to date then please let us know. We can provide copies of the Maps of the pipeline route on CD as shape files if required. We can also provide these by local authority area in zipped files which can be emailed.

Yours sincerely

Catherine Newton
Planning Consultant
