

# Drink Spiking

## Guide for Licensed Premises

Several areas of the UK have seen a significant increase in the reports of spiking incidents. Given the large night-time economy in Greater Manchester there has been a similar increase in reports which reflects this national picture.

**01**

**Victim's welfare & medical needs are the first priority.**

- Contact Ambulance and Police.
- Remain with victim
- Identify any friends to help with victim care/reassurance.
- Use appropriate first aid training to maintain airwaves/prevent further injury and loss of personal belongings.

**02**

- Where do we believe this happened?
- How long ago?
- Who was the victim with as there could be additional victims or act as a witness?
- Any other injuries known?
- Details of any suspects

**03**

- Preserve the drink/glass/bottle
- Keep the testing kit if used
- Any other evidence such as powder, needles
- CCTV evidence

**04**

Take details of any witnesses to provide to the police. Their evidence may be important.
