KEY

All fees and charges are subject to relevant legal constraints. Some fees and charges are required by law to be established and administered by the Council, others can be established at the Council's discretion. Once established, regulations then influence the extent or level of the fee or charge. Some fee or charge levels are set by regulation, others are limited by regulation, and some can be determined freely by the Council, though subject to other influencing factors such as competition.

The attached list of fees and charges also indicates which fees are Mandatory (M) and which are Discretionary (D) for both the establishment of the charge (the first indicator) and then setting the level of the charge (the second indicator). For example, a fee that must be established and administered by the Council, but the level of fee or charge can be freely determined by the Council would be marked 'M / D'.

The table below has been RAG shaded in terms of extent of Council discretion from red (top 1) where fees and charges are mostly determined by regulation, to green (bottom 2) where the Council has greater control on establishing and setting fee or charge levels. In the middle or amber zone, Council's discretion is limited by regulatory rules, and for the fees or charges that are subject to such rules a code of 'D*' is used in the booklet, usually with a statement that describes the relevant rule at the bottom of the page or table.

Review of Residential and Nursing Home Placements				
The Council, in making residential care and nursing home placements outside the Trafford area, may ask the other Local Authority involved to carry out the placement review where it would be more cost effective to do so e.g. where a placement is made in a distant local authority area.				
In cases where another local authority arranges a residential placement within the Trafford area and requests that a Trafford Social Worker undertakes the placement review then a charge may be made which is a flat rate charge calculated to cover the cost of social work and administrative time in completing the review.

Car boot sales (operated by a not-for-profit)^	1.00	1.05	5.0%

*A larger Admin Fee of £105 will be charged where a licence is issued retrospectively. This is to account for additional administrative work, e.g. research, additional communications with organisers etc.

^Markets run by charities or not-for-profit organisations will only be charged a per trader fee for those stalls trading for profit, not for those traders raising funds for a charity or not-for-profit organisation. Applicants will need to evidence their charity/not-for-profit status.

****Standard Fee**

The 'Standard Fee' is a set fee based on the following assumptions:

No. of stalls, operating days and operator

The Standard Fee would equate to a larger admin fee of £105 (to account for the additional administration)

Every effort will be made to establish the correct fee with the operator before an invoice for the Standard Fee is issued.

ie fee per trader x number of stalls x number of days + admin fee £105
