If you're new here, here's a few tips to help you get started:

1. Select one of the three options - **My House**, **My Nearest** or **My Maps** for the service you would like to use and search for an address by typing any part of an address or postcode. You can choose the address you need from the search results.
2. **My House** and **My Nearest** will display information and nearest services for the selected location.
3. **My Maps** provides location based information and services on an interactive map. You can switch layers on/off, change the basemaps and clicking on certain features will display any relevant information.
4. The Reset button will clear the address and map and return to the initial My House view.
