Content and Format of Proofs and Appendices

Content

Proofs of evidence **should**:

- focus on the main issues identified, in particular on areas of disagreement;
- be proportionate to the number and complexity of issues and matters that the witness is addressing;
- be concise, precise, relevant and contain facts and expert opinion deriving from witnesses' own professional expertise and experience, and/or local knowledge;
- be prepared with a clear structure that identifies and addresses the main issues within the witness's field of knowledge and avoids repetition;
- focus on what is really necessary to make the case and avoid including unnecessary material, or duplicating material in other documents or another witness's evidence;
- where case law is cited in the proof, include the full Court report/ transcript reference and cross refer to a copy of the report/ transcript which should be included as a core document.

Proofs **should not**:

- duplicate information already included in other Inquiry material, such as site description, planning history and the relevant planning policy;
- recite the text of policies referred to elsewhere: the proofs need only identify the relevant policy numbers, with extracts being provided as core documents. Only policies which are needed to understand the argument being put forward and are fundamental to an appraisal of the proposals' merits need be referred to.

Format of the proofs and appendices:

- Proofs to be no longer than 3000 words if possible. Where proofs are longer than 1500 words, summaries are to be submitted.
- Proofs are to be spiral bound or bound in such a way as to be easily opened and read.
- Appendices are to be bound separately.
- Appendices are to be indexed using **projecting tabs**, labelled and **paginated**.
