1. Introduction

1.1. In preparing Supplementary Planning Documents (SPDs), the Council is required to follow the procedures laid down in the Town and Country Planning (Local Planning) (England) Regulations 2012, and its adopted Statement of Community Involvement (SCI).

1.2. There are a total of 21 Conservation Areas in Trafford. The Downs is one of the first to undergo reappraisal as required by national guidance. Historic England guidance sets out, designation is not sufficient to preserve and enhance these areas. Instead local authorities need to develop policies which clearly identify what features of the area should be preserved or enhanced and set out how this should be done.

1.3. Such assessments help to generate awareness and encourage local property owners to take the right sort of action. The appraisals also identify areas where enhancement through development may be desirable.

1.4. Through the production of these documents the Council will be able to manage change in their historic areas in a way that will preserve and enhance them.

1.5. This Conservation Area Management Plan was carried out by consultants during 2015.

1.6. This Consultation Statement contains a summary of which bodies and persons were invited to make representations and how they were invited to make representations.

1.7. This will replace any guidance relevant to The Downs in the existing guidance PG7 The Downs, The Devisdale, Bowdon, Ashley Heath (1992).

2. Statement of Community Involvement Review

2.1. The Council reviewed its Statement of Community Involvement (2010) and adopted a revised version in October 2015. This sets out the process by which the Council will consult appropriate bodies in the course of drafting all documents that are part of the Local Plan.

3. Public Consultation

3.1. A copy of the draft Management Plan was made available for a statutory 6-week public consultation from 4th January to 15th February 2016. A wide range of stakeholders were consulted including landowners, all residents within any of the proposed changes to the Conservation Areas, developers, key agencies and service providers, Parish Councils, Registered Providers and other interested parties. A full list of the consultees that were formally invited to comment on the document is available in Appendix 1.
In addition three drop-in sessions were arranged during the consultation period for people to come and discuss the appraisals with officers from the Council. Firstly on the 11th January 2016 at The Jubilee Centre, The Firs, Bowdon, WA14 2TQ, between 5pm and 6.30pm, Secondly on the 12th January 2016 at St George’s Parish Hall, Church Street, Altrincham, WA14 4DB, between 5pm and 6pm, and finally the 1st February 2016 at Altrincham Town Hall between 12 noon and 2pm.

3.2. A public notice was displayed in the 4th January 2016 issue of the Manchester Evening News and is available in Appendix 2.

3.3. The SPD and associated documentation were made available for inspection at the following locations:

- On the Council’s website: http://www-trafford.gov.uk
- Trafford libraries
- Access Trafford offices

Individual copies of the documents were also made available on request.

3.4. Comments were invited in writing, no later than 15th February 2016, either by post to: Strategic Planning, Trafford Town Hall, Talbot Road, Stretford, M32 0TH or alternatively by email to: strategic.planning@trafford.gov.uk.

3.5. Consultation responses and the identity of those making them are matters of public record and open to public scrutiny. Copies of the responses received to the consultation can be viewed on request to the Strategic Planning team, Trafford Town Hall, Talbot Road, Stretford M32 0TH.

4. Consultation Responses and Main Issues

4.1. A total of 20 representations were received to the public consultation. A summary of these representations is available to view in table 4.1 below, together with the Council’s response to the points raised.

- General support for the policies with some minor amendments suggested to policies covering parking and access, open spaces, windows and street lighting. Support for the proposed extension to the Article 4 area but that the Article 4 area should be further extended to include Higher Downs
- Several comments were concerned about the traffic and parking issues in the area particularly on New Street
- Concern for state and maintenance of some of the buildings and public realm
- Objection from half the residents on Lyme Grove to the proposal of an Article 4 direction covering their properties
- Corrections needed to the character map and text to match adopted appraisal
4.2. Other more general comments are summarised below:-

- The inclusion of further wording and rewording to better reflect national policy and legislation on dealing with positive contributing buildings and designated heritage assets, for example listed buildings.
- The need for additional maps in the CAMPs to show positive contributing buildings identified in the CAAs.
- Requests for clarity in the policies and suggestions for additional text covering historical information.
- Request for the inclusion of a policy to cover street lighting in all CAMPs which specifies warm LED lights and appropriate column styles in CAs.

5. Main Changes to the SPD

5.1. Changes to the SPD have been made in response to the representations received:-

- Addition of townscape analysis maps
- Addition of Higher Downs to the proposed Article 4
- Minor corrections and additions to the general text
- The addition of and changes to the position in the text of photographs
- Changes to the text and policies to add more detail, improve clarity and ensure conformity with legislation and NPPF.

<td>Thought should be given to stopping traffic using the road as a cut through destination. When looking altering the Downs traffic lights, it plan to reduce or eliminate New Street being used as a cut through; reducing danger to pedestrians. Access to New Street should only be for the Regent Road car park and residents. Traffic should be diverted using roads more suitable than New Street (e.g. Groby should take most of the New Street traffic). Where New Street becomes one way, this should be residents only parking. There should be a higher permit fee for the residents. The parking area could then be upgraded to reflect the Lyme Grove street scene with stone sets on the parking side, indicating parking areas.</td>

These 15 houses were all built at the same time on the first four plots of agricultural land sold in 1851 by the 7th Earl of Stamford directly to housing developers. In proportions, detailing and windows, they are of significance as they show the transition from a simple Georgian style to an increasing elaborate Victorian style. Their grouping and selection of terraced, semi-detached and detached houses of varying sizes illustrates the desire of the developers to provide a range of housing for different types of households.</td>

A generic policy will be put in all the CAMPs for LED warm lighting but to specify lighting levels is not appropriate as there maybe changes in technology. Also the style and height of columns must meet safety standards and will vary per street so the policy will specify that where possible lighting should be designed to be appropriate to the character of the Conservation Area.
The following residents of Lyme Grove are opposed to the proposed Article 4 for their properties:
- No 1, No 9, No 11, No 13, Hunters Moon, No 4, No 8, No 10, No 12, No 14

The CAMP sets out a comprehensive case for the proposal of Article 4 on Lyme Grove. No justification has been provided for the residents objection. However a further consultation will be held with individual property owners before an Article 4 is imposed.
