

Opposition to  
Policy R4

Dear Yvonne Poles

As I live at the above address I have received information that the countryside near my house is going to be developed.

I want to disagree with this proposal very strongly as it will cause more pollution and more disruption in the area. My concern is the wildlife in the area and what will happen to them. I have lived at the above address for over 30 years always enjoyed living there and do not want anything changed.

Thank you for your time over this matter

Yours Sincerely

MISS DENISE BEDFORD
