

TRAFFORD
COUNCIL

Proposed Amendment to Policy L6

2nd June 2011

Introduction

At the tenth Hearing session of the Trafford Core Strategy Examination the Inspector considered the Council's proposed revision to Policy L6 (Waste) to reflect the new waste hierarchy set out in revised Planning Policy Statement 10: Planning for Sustainable Waste Management. It was acknowledged that this revision, which has been discussed with the Greater Manchester Geological Unit, would be an appropriate, minor, technical amendment which brings Policy L6 into line with the updated national planning policy framework for waste.

Council's Response

The Council is proposing to change the text of Policy L6 as follows:

Suggested Change 300.43 will be added to the Schedule of Proposed Changes (CD 12.4).

Policy L6: Waste

L6.2 The Council will, therefore:

- (b) Require all developers of new waste management facilities within the Borough to demonstrate the proposal's consistency with the principles of the waste hierarchy (~~reduction, re-use, recycling/ composting, energy recovery, final disposal~~ prevention, preparing for reuse, recycling, other recovery, and disposing only as a last resort);
