	Monday 3 June		Monday 15 July	6				
				38				47.5

These dates relate to the Education Portal where hours are claimed by child on either a term time **or** an all year round basis. Providers can choose to deliver funded hours in line with the term dates or they can deliver them over different weeks within the term. Funding is claimed on a termly basis, providers must ensure children receive all the hours claimed for on their behalf. Hours must be delivered in line with the Early Education and Childcare Statutory Guidance.

Children are entitled to a maximum of 570 funded hours per eligibility year, or 1140 if they are eligible for 30 hours childcare.

Term Time Only

These hours are claimed during term time over 38 weeks of the academic year. The maximum number of hours available to claim per week is 15.

All Year Round

These hours are claimed over 47.5 weeks of the academic year. The maximum number of hours you can claim per week is 12. Providers claim the maximum number of weeks available, to be delivered during the above dates.

Where providers are not open for 38 weeks of the year on a term time only basis or over 51 weeks all year round - please contact the early education team.

Please note 'weeks available' refers to the number of funded weeks that can be claimed for not the actual number of calendar weeks. There may be more calendar weeks than funded weeks.
