

BEDBUGS – Pre-treatment advice for customers

Will require two visits

The visits must be **one** month apart

The customer must not clean up between visits

Pre preparation

Remove all items from the floor and place in plastic bags

Remove all articles from under bed, cupboards and furniture and place in plastic bags

Do not transfer any items to another room as this can spread the problem

Vacuum all floors and soft furnishings

Empty vacuum cleaner outside

All bedclothes must be removed from mattress and placed in plastic bags

Mattress must be removed from bed and stood upright against the wall

Bedbugs may be killed by placing clothes and bedding in tumble drier for at least 20 minutes
