

# Our EPIC Values.....

## We COLLABORATE

We build relationships, collaborate; treat people as equal partners and work together to make things happen.

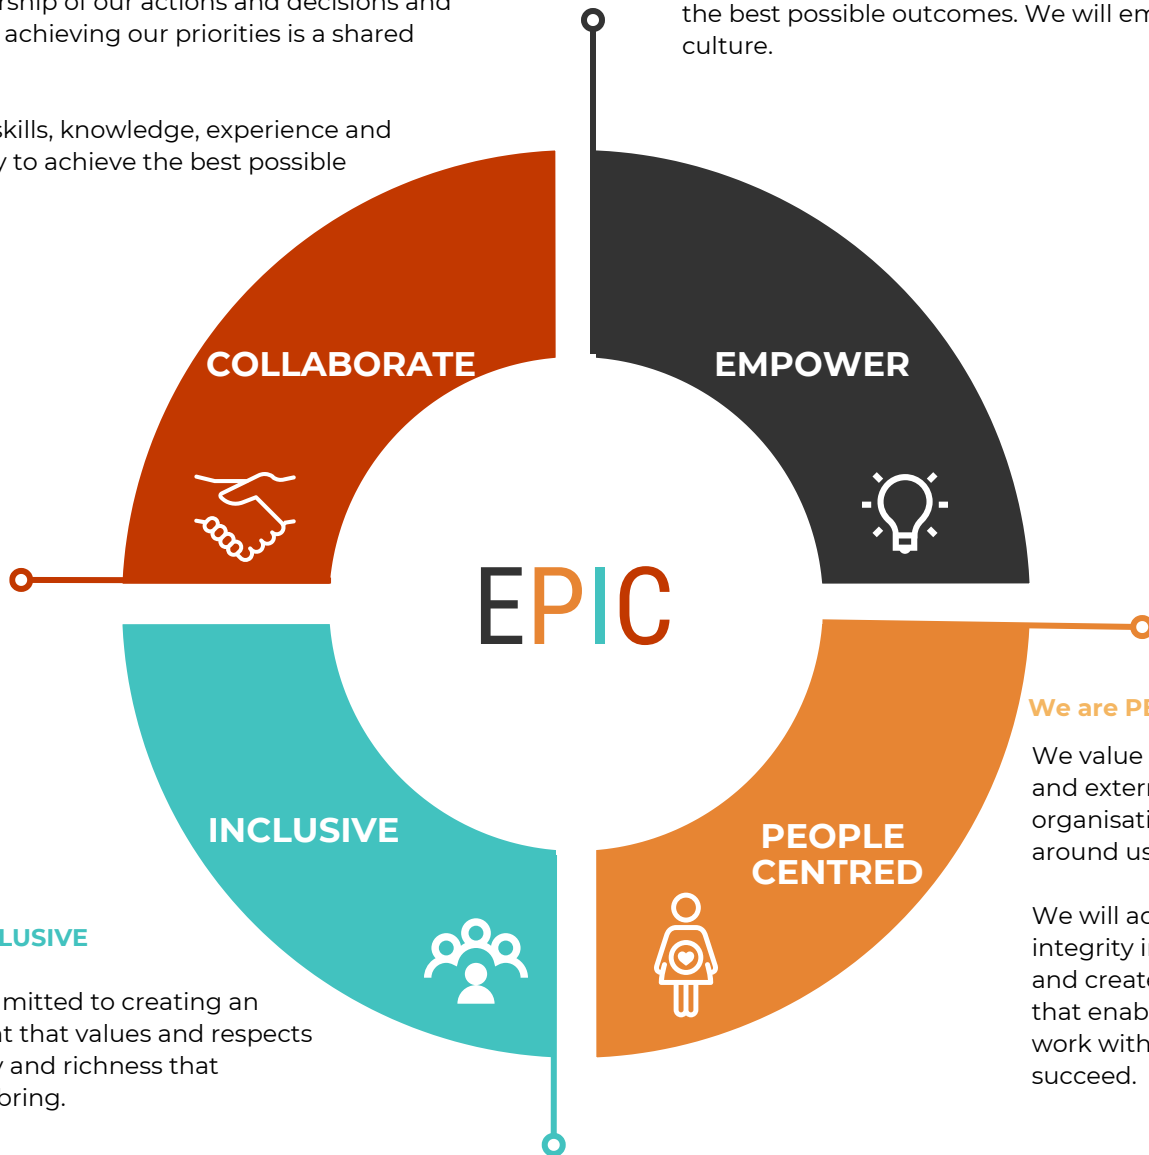

We take ownership of our actions and decisions and recognise that achieving our priorities is a shared responsibility.

We share our skills, knowledge, experience and insights openly to achieve the best possible outcomes.

## We EMPOWER

We inspire and trust our people to deliver the best outcomes for our customers, communities and colleagues.

We encourage each other to grow, learn and work independently so that we can create and innovate to get the best possible outcomes. We will embrace a learning culture.

## We are INCLUSIVE

We are committed to creating an environment that values and respects the diversity and richness that differences bring.

## We are PEOPLE CENTRED

We value all people, within and external to the organisation and give those around us respect.

We will act with honesty and integrity in all that we do, and create an environment that enables everyone we work with to thrive and succeed.
