Other including omissions and suggestions for proposed amendments:	<p>Valero has invested considerable financial resources to redevelop the Manchester fuels terminal and the site has now been in operation for almost a year. The reopening of the terminal, which is directly connected by pipeline to our refinery in Pembroke, has been welcomed by DECC and it is now a key part of the UK national energy infrastructure, providing security of supply for Manchester and the north west. Valero confirms that it intends to continue operations at this site. We disagree with Peel Holdings' assertion (Topic Paper Chapters - Para 22.3) that the terminal is 'noncompatible with the surrounding uses', indeed we feel that our operation is entirely consistent with the zone's mixed-industrial use. We agree with Trafford Council's response (Para 22.4) that Valero's operations are 'consistent with the traditional Trafford Park industrial uses.' We do recognise that, given the nature of Valero's operation, our presence may impose certain conditions on adjoining developments.</p>
