**Trafford's Green and Open Spaces**  
**An Assessment of Need Update**  
**June 2009**

## **Contents**

### **Part A**

- 1 Introduction**
- 2 The Quantity of Greenspace**
- 3 Distances of Greenspace from Residents**
- 4 The Quality of Greenspaces**
- 5 Wards Ranked in Order of Sufficiency**

### **Part B**

#### **Individual Ward Profiles**

#### **Appendix 1 List of Greenspace codes used for GIS mapping**

## **Part A**

### **1 Introduction**

- 1.1 Following the Greenspace Assessment of Need carried out in 2004/2005 this short update provides some additional information, amendments and a progress report. Subsequent research has been carried to assess the distance residents travel to greenspaces. In addition amendments have been made to the audit of sites to add new sites and correct some inaccuracies in the 2005 data. Information is also provided to update the quality of play spaces in Trafford.
- 1.2 The full assessment has not been repeated as the majority of the information is being taken forward in a Greenspace Strategy due to be published later this year. The Greenspace Strategy will provide a more detailed breakdown of Greenspace in Trafford and set standards for its provision through the identification of a hierarchy of Parks from Borough Parks down to Local Parks and an action plan to improve the many types and uses of other Greenspaces in the Borough.

### **2 The Quantity of Greenspace**

- 2.1 Amendments have been made to individual wards by correcting inaccuracies made apparent by access to improved skills and technology in GIS and by adding in a small number of sites that had been missed in the initial assessment. Overall, the amount of green space has not altered substantially and there has only been one totally new site added, Wellman Way in Altrincham.
- 2.2 A new map has been produced to reflect the changes and shows sufficiency and deficiency of accessible Greenspace in the individual wards. This is illustrated in Figure 1. The only significant change is to Altrincham which in 2005 was slightly deficient and is now slightly sufficient. The updated individual ward profiles make up Part B of this report. The list of sites mapped is included in Appendix 1.

### **3 Distances of Greenspaces from Trafford Residents**

- 3.1 Following the 2005 Assessment a new piece of work was carried out looking at the distance of parks and green spaces from residential addresses in Trafford. Natural England's standard recommends that people are within 300 metres of an accessible green space. Trafford has recorded that 70% of its population is within 300 metres of an accessible managed greenspace area over 0.2 hectares and 97% within 600 metres.
- 3.2 Figure 2 illustrates the information as a thematic map. The Greenspaces mapped exclude open countryside areas, wildlife and river corridors due to the difficulty of mapping boundaries and access points.
- 3.3 This work will be taken forward into the Greenspace Strategy where more detailed standards of access to particular facilities such as woodland and play grounds will be developed. In Trafford one of the key important issues is not the availability of Greenspace but its quality and ability to meet the recreation needs of residents.

#### **4 The Quality of Greenspaces.**

- 4.1 Since 2005 quality of Greenspaces has improved, although the approach to qualitative assessment has changed through the introduction of the 'Trafford Greenspace Awards' assessment in 2007, a rigorous inspection regime that expands on the national Green Flag awards assessment, into which 6 parks are continue to be submitted by Trafford.
- 4.2 The Trafford Greenspace Awards scheme takes the form of a biannual assessment (winter and summer) with sites awarded either bronze (65%), silver (75%) or gold (85%) – an overall score is obtained by taking the average score from the three distinct components of the assessment:
- (i) Internal quality assessment via Greenspace Officers (including criteria similar to Green Flag)
  - (ii) External quality assessment (including criteria similar to Green Flag)
  - (iii) Public feedback via the Greenstat system throughout the year
- 4.3 This reduces subjectivity in assessment of quality and provides a clear system and hierarchy for grading the quality of greenspaces.
- 4.4 2007 results revealed an average score of 66%, with 24 of the 41 sites achieving at least a bronze award, whilst 2008 results showed an average score of 69%, with 24 sites again achieving the bronze award or above. The Greenspace Strategy will provide further information on individual park scores.
- 4.5 One of the biggest improvements has been in facilities for children and young people. The consultation exercise carried out in 2005 showed there was a demand for skate parks amongst young people. The Borough now has 6 skate facilities located at the following sites:
- Woodsend Park, Flixton
  - Davyhulme Park, Urmston
  - Lostock Park, Stretford
  - Cross Lane Park, Partington
  - Navigation Road, Altrincham
  - Worthington Park, Sale

A further skate park is planned at Longford Park.

- 4.6 The recognised quality mark for childrens play areas is The National Playing Field Association Local Equipped Area for Pay (LEAP) and the Neighbourhood Equipped Area for Play (NEAP).
- 4.7 In 2005 Trafford had 20 play areas of LEAP standard and 1 of NEAP standard. In 2008 this had increased to 33 of LEAP standard and 2 of NEAP standard. Recently completed and planned schemes for 2009/10 indicate that the LEAP figure could rise to 47, provided sites meet NPFA (FiT) criteria, which at present do not necessarily mirror those of Play England's 'Designing for Play' publication, linked to the national DCSF/DCMS Play Strategy and the emphasis on design quality and natural play rather than historically assessed

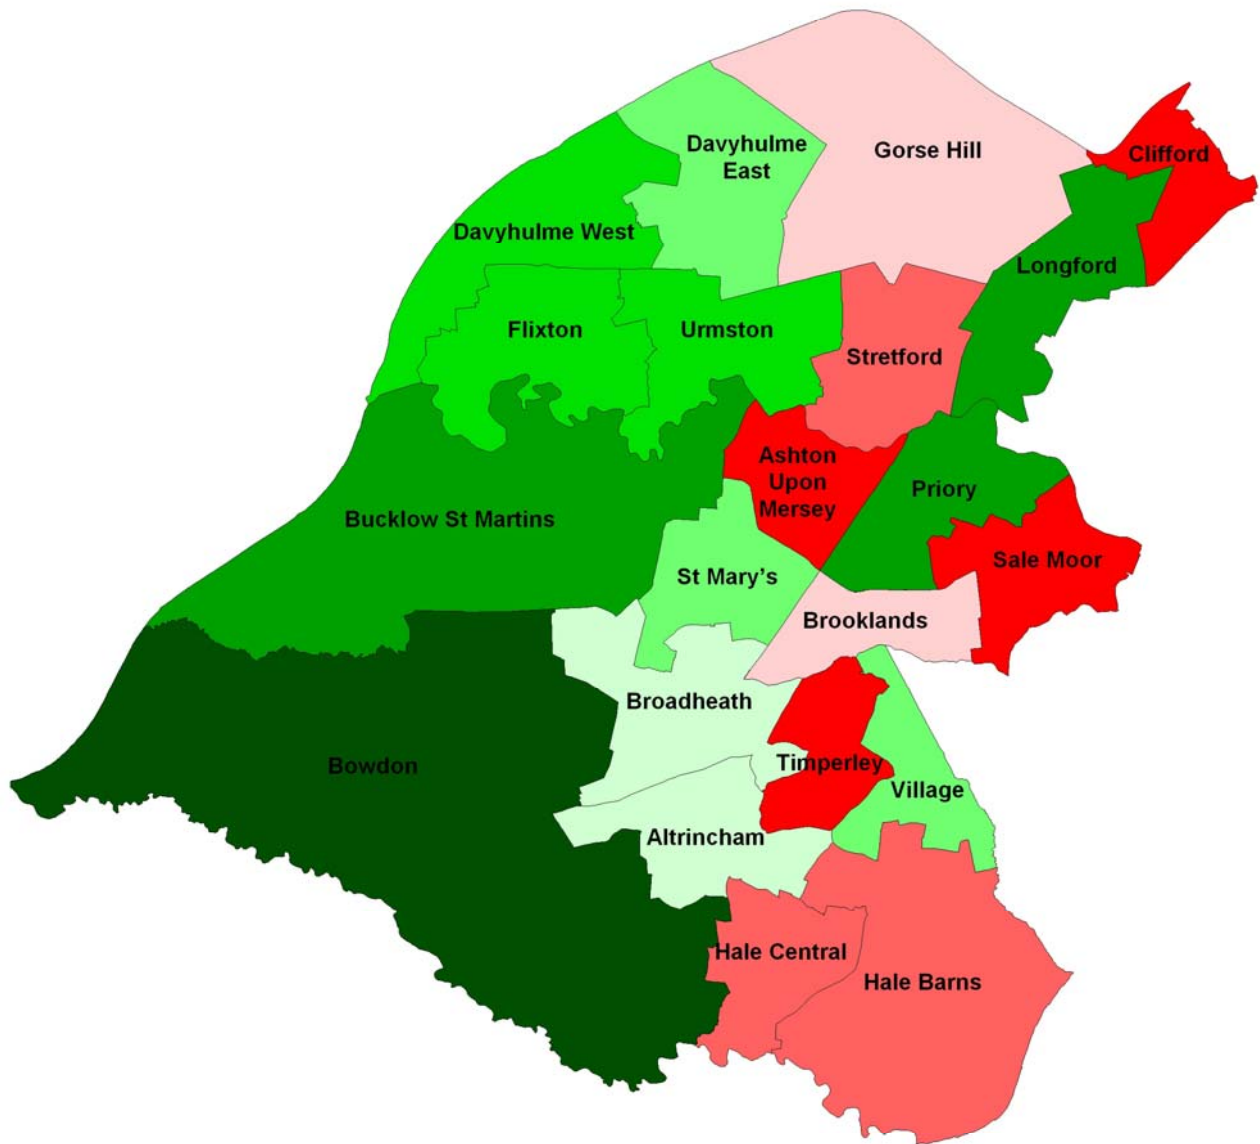

components such as size of activity area; number of items of equipment; range of activities provided and fencing.

5 **Wards Ranked in Order of Sufficiency**

All wards in red are deficient and all wards in green are sufficient

Ward	Sufficiency rating (1 = most deficient)
Sale Moor	1
Ashton Upon Mersey	2
Timperley	3
Clifford	4
Hale Barns	5
Stretford	6
Hale Central	7
Brooklands	8
Gorse Hill	9
Altrincham	10
Broadheath	11
St Mary's	12
Davyhulme East	13
Village	14
Flixton	15
Davyhulme West	16
Urmston	17
Bucklow St Martins	18
Longford	19
Priory	20
Bowdon	21

## Wards Sufficient or Deficient in Accessible Greenspace

## Distances of Residential Addresses from Greenspaces

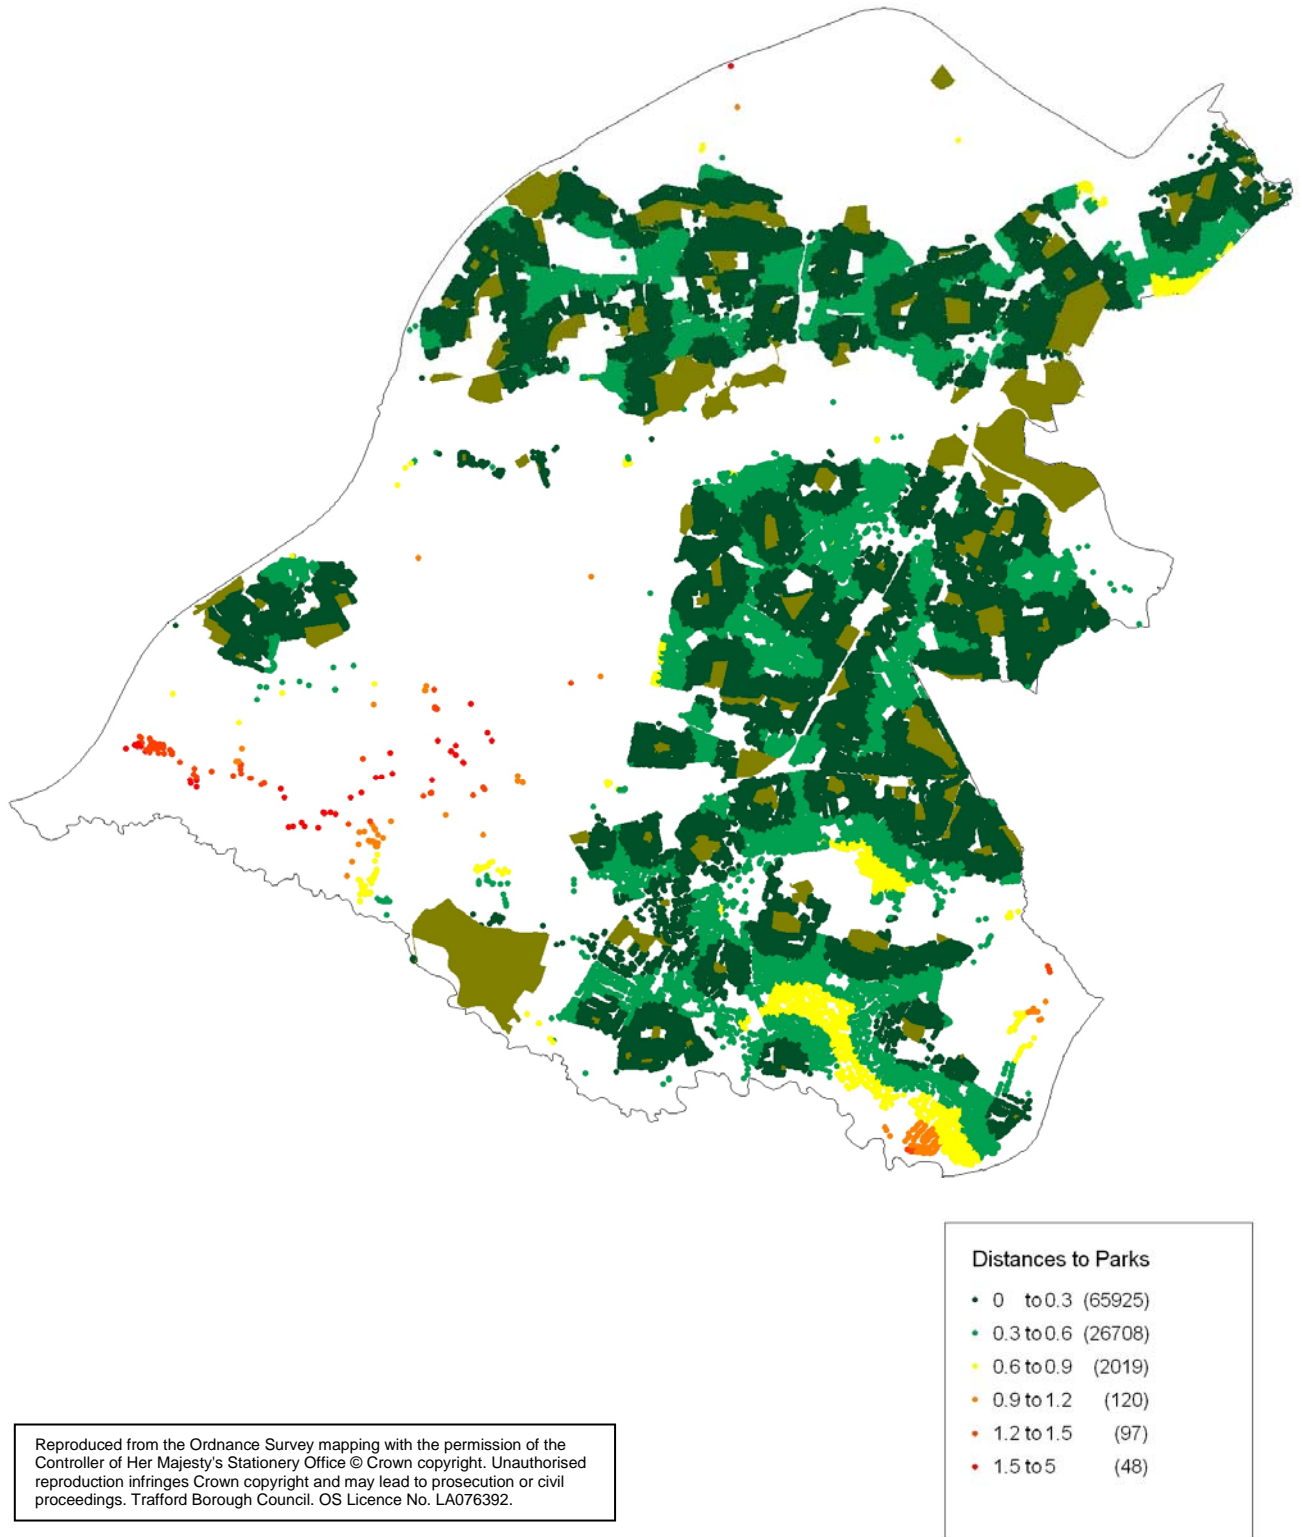

Figure 2

## Part B - Individual Ward Profiles

### Altrincham

---

#### Description:

Altrincham is a densely populated Ward with high land values and strong demand for development. The Ward is bounded by the natural beauty of Bowdon to the south and the light industry of Broadheath to the north. Altrincham is a multifunctional Ward, providing a vibrant town centre, housing, and a transport interchange and well used greenspaces.

#### Commentary on results:

Altrincham has six significant areas of greenspace. Its largest site, John Leigh Park, contains children's play areas, tennis courts, a pet's corner and a bowling green. There are formal sports facilities within the Ward, including provision for football and a municipal golf course. Other facilities include King George V pool, an historic pool adjacent to Altrincham golf course. There are six play areas, one is identified as a Neighbourhood Equipped Area for Play (NEAP), while three are identified as local equipped areas for play (LEAP). The Ward is densely populated and it is slightly sufficient in accessible greenspace (0.47 hectares) using the LANGsp standard.

#### Characteristics, facts and figures

Population	8731
Area of Ward (hectares)	301.31
Density of population (people per hectare)	29
Density of population in Trafford	Above average (3 <sup>rd</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16	17
Density of under 16s in Trafford	Low (1 <sup>st</sup> quartile)

### Audit of current provision of accessible natural greenspace

Name of site	Code	Area (ha)	Function
John Leigh Park	P2Alt	6.14	Neighbourhood Park
Hendam Drive Play Area	P17Alt	0.74	Other open space
Oldfield Brow	P27Alt	2.44	Recreation Ground
Navigation Road Recreation Ground	P5Alt	4.33	Neighbourhood Park
King George V Pool	P29Alt	2.73	Other open space
Welman Way	P126Alt	1.54	Other open space

### Analysis of access to local accessible natural greenspace (LANGsp)

Total Area of LANGsp	17.93 ha
Recomended Area of LANGsp	17.46 ha
Degree of Sufficiency/Deficiency	Sufficient
Rank in Trafford	10/21

### John Leigh Park

## Ashton Upon Mersey

---

### Description:

Ashton Upon Mersey, is a densely populated Ward in the west of the Sale area. There are areas of open space to the north, which are traversed by the River Mersey. The majority of the land is under private ownership and includes a private golf course, sewage works, private sports facilities and an allotment site.

### Commentary on results:

The Ward has one park, Ashton Park. This contains a play area, provision for basketball, bowls and football. There are no other publicly accessible areas within the Ward, but paths that run through and adjacent to the private sites and links to the Trans Pennine Trail. The Ward has an above average population density and a high percentage of the population is under 16. Therefore, the amount of land required to meet the LANGsp standard is higher than the available greenspace within the Ward, making it one of the most deficient Ward in the Borough. There is currently a 14.88 hectare shortfall in available accessible natural greenspace.

### Characteristics, facts and figures

Population	9696
Area of Ward (hectares)	230.3
Density of population (people per hectare)	42
Density of population in Trafford	High (4 <sup>th</sup> quartile)
% of population under 16(national average)	20.2
% of population under 16	21.2
Density of under 16s in Trafford	High (4 <sup>th</sup> quartile)

### Audit of current provision of accessible natural greenspace (LANGsp)

Name of site	Code	Area (ha)	Function
Ashton Park	P52Ash	4.51	Neighbourhood Park

### Analysis of access to local accessible natural greenspace

Total Area of LANGsp	4.51 ha
Ideal Area of LANGsp	19.39 ha
Degree of Sufficiency/Deficiency	Very Deficient
Rank in Trafford	2/21

### Playground at Ashton on Mersey Park

## Bowdon

---

### Description:

Bowdon is the largest Ward in Trafford and is characterised by open farmland and a predominantly rural nature, to the southern boundary the River Bollin forms the Borough boundary with Cheshire. The majority of the land is owned and managed by the National Trust as part of the Dunham Massey estate. Within the area there are small historical villages including Dunham and Warburton and the Borough's crematorium and cemetery. The Bridgewater Canal runs through the area, forming part of the Cheshire Ring Canal Walk. In addition the Trans Pennine Trail runs through the Ward and there are local paths forming part of the Bollin Valley Way within the area.

### Commentary on results:

The Ward contains many woodland areas, including areas within Dunham Park. There are six other areas of open space within the urban area, including two parks and four local play areas and other areas of open space used for informal activities. Other facilities within the area include bowling greens, artificial turf pitches at a private hockey and cricket club and a private golf course. The largest area of open space is Dunham Park and Dunham Massey Hall, which contains a moat, lake and gardens. The rural character and low population density contribute to the Ward's status as the most sufficient Ward in the Borough for greenspace, containing 146.33 hectares above the standard.

### Characteristics, facts and figures

Population	9634
Area of Ward (hectares)	2342.73
Density of population (people per hectare)	4
Density of population in Trafford	Low (1 <sup>st</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	21.8
Density of under 16s in Trafford	High (4 <sup>th</sup> quartile)

### Audit of current provision of accessible natural greenspace

## Analysis of access to local accessible natural greenspace (LANGsp)

Total Area of LANGsp	165.59 ha
Ideal Area of LANGsp	19.26 ha
Degree of Sufficiency/Deficiency	Very Sufficient
Rank in Trafford	21/21

### Dunham Park

## Broadheath

---

### Description:

Broadheath has a mix of land uses to the south industrial and retail areas, to the north a new housing development known as Stamford Brook which includes provision for a substantial amount of public space. To the west it has agricultural areas with views across to Warburton and Dunham and to the south the Bridgewater Canal and the east residential areas of Timperley.

### Commentary on results:

The Ward has five main areas of greenspace of varying size, including three community parks. The Ward has an above average percentage of under 16 year olds and the area is well served by three play areas which are up to LEAP standard. Other facilities include a pitch and putt facility at Woodheys Park and football pitches. The Ward is slightly sufficient in greenspace by 0.60 hectares. Within the Unitary Development Plan a site has been identified as a proposed country park (the former Altrincham Sewage Works) which could make the ward very sufficient.

### Characteristics, facts and figures

Population	11457
Area of Ward (hectares)	415.66
Density of population (people per hectare)	28
Density of population in Trafford	Below average (2 <sup>nd</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	22.2
Density of under 16s in Trafford	High (4 <sup>th</sup> quartile)

### Audit of current provision of accessible natural greenspace

Name of site	Code	Area (ha)	Function

Newton Park	P8Brd	2.04	Local Park
De Quincey Park	P9Brd	3.17	Formal Garden
Woodstock Park	P10Brd	1.36	Local Park
Salisbury Fields	P95Brd	9.92	Recreation Ground
Woodheys Park Wood	W12Brd	2.21	Woodland

### Analysis of access to local accessible natural greenspace

Total Area of LANGsp	23.51 ha
Ideal Area of LANGsp	22.91ha
Degree of Sufficiency/Deficiency	Sufficient
Rank in Trafford	11/21

### Playground at Woodheys “Pinky” Park

## Brooklands

---

### Description:

Brooklands is a small and densely populated Ward within the Sale area. It is bounded by the A56 to the west, to the south by Baguley brook, and to the north and east residential areas. The Bridgewater canal runs through the western part of the Ward.

### Commentary on results:

The Ward has seven greenspace areas including a park, two large recreation grounds and small woodland. Facilities contained in these areas include four play areas, which are currently not up to LEAP standard, a leisure centre, rowing club, tennis and bowls facilities and football pitches. The Ward has a high number of residents and is slightly deficient in greenspace by 0.76 hectares. There are areas of open space adjacent or within close proximity to the Ward boundaries in particular to the south Baguley Brook and Wythenshawe Park in Manchester.

### Characteristics, facts and figures

Population	9759
Area of Ward (hectares)	222.29
Density of population (people per hectare)	44
Density of population in Trafford	High (4 <sup>th</sup> quartile)
% of population under 16(national average)	20.2
% of population under 16(in ward)	19
Density of under 16s in Trafford	Low (1 <sup>st</sup> quartile)

### Audit of current provision of accessible natural greenspace

Ideal Area of LANGsp	19.52 ha
Degree of Sufficiency/Deficiency	Deficient
Rank in Trafford	8/21

### Walton Park Railway

## Bucklow St Martins

---

### Description:

Bucklow-St Martins is the second largest Ward in the Borough and, like its southern neighbour Bowdon, is characterised by large areas of agricultural green belt land including Carrington Moss. Within the Ward is a large industrial complex area at Carrington. Within the south east part of the Ward are the villages of Carrington and Partington and the eastern areas the residential area of Sale. The northern boundary of the site is bounded by the River Mersey. The Ward as a whole is in the 15-20% most deprived areas in the country.

### Commentary on results:

There are seventeen areas of greenspace including woodland, open space and parks. The Ward has nine play areas. Five are in Partington, one of which is up to LEAP standard, two in Carrington and two in Sale West. Other facilities in the area include Dainwell Woods, within which the Trans Pennine Trail linear recreational route passes, football pitches, a pitch and putt golf course, tennis, bowling and cricket facilities and multi use games areas. The Ward is very sufficient in greenspace, containing 52.54 hectares above the standard. However, this includes a large amount of woodland within the rural area that is not easily accessible to Partington residents, who make up the majority of the Ward's population. With an above average level of under sixteen year olds, the many small sites and recreation grounds do not offer the variety of facilities that other parts of the Borough offer.

### Characteristics, facts and figures

Population	10277
Area of Ward (hectares)	1304.91
Density of population (people per hectare)	8
Density of population in Trafford	Low (1 <sup>st</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	23
Density of under 16s in Trafford	High (4 <sup>th</sup> quartile)

Ideal Area of LANGsp	20.55 ha
Degree of Sufficiency/Deficiency	Very Sufficient
Rank in Trafford	18/21

## Clifford

---

### Description:

Clifford is a small and densely populated Ward at the north east tip of the Borough, bordering Hulme in Manchester to the east and Whalley Range to the south. It is characterised by dense residential areas of victorian terraced housing and limited amount of greenspace. Clifford Ward is part of the Old Trafford and Gorse Hill regeneration area and suffers from high deprivation (in the top 5% most deprived wards in England) and high crime rates.

### Commentary on results:

The Ward has four main areas of greenspace, but only one of significant size, Hullard Park. Within the Ward there are facilities for bowling, children's play areas, football and cricket pitches and multi use games areas. In addition there is an artificial turf pitch at the local school available for community use and sites identified within the Unitary Development Plan where new facilities could be provided. The Ward is deficient in accessible greenspace as it has a very high population density and there is a significantly high proportion of under sixteen-year-olds. The area has less than half the recommended area of greenspace, falling short of the standard by 11.16 hectares. Residents within the Ward have access to nearby greenspaces, including to the west Seymour Park.

### Characteristics, facts and figures

Population	10494
Area of Ward (hectares)	185.47
Density of population (people per hectare)	57
Density of population in Trafford	High (4 <sup>th</sup> quartile)
% of population under 16	20.2
% of population under 16	23.05
Density of under 16s in Trafford	High (4 <sup>th</sup> quartile)

### Access to local accessible natural greenspace

Total Area of LANGsp	9.83 ha
Ideal Area of LANGsp	20.99 ha
Degree of Sufficiency/Deficiency	Very deficient
Rank in Trafford	4/21

### Hullard Park

## Davyhulme East

---

### Description:

Davyhulme East is in the north of Trafford and is bounded to the north by the Manchester Ship Canal and the Bridgewater Canal. The north area of the Ward is home to the Trafford Centre and its environs, separated from the residential areas of the Ward by the M60, with the sewage works and Trafford General hospital to the west of the Ward.

### Commentary on results:

The Ward has three main areas of greenspace that are all of a significant size. The Ward contains two play areas, one of which is a LEAP, and facilities for tennis, basketball, street hockey, bowls and football. The Ward is sufficient in greenspace by 8.7 hectares.

### Characteristics, facts and figures

Population	9911
Area of Ward (hectares)	417.56
Density of population (people per hectare)	24
Density of population in Trafford	Below average (2 <sup>nd</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	20.5
Density of under 16s in Trafford	Above average (3 <sup>rd</sup> quartile)

### Ornamental ponds and rose garden at Davyhulme Park

## Davyhulme West

---

### Description:

Davyhulme West is bounded by the Manchester Ship Canal to the west, Davyhulme sewage works to the north and residential areas of Davyhulme and Flixton to the east and south. There Ward is mainly residential with large areas of private open space along the canal edge and the Mersey Valley to the south east tip of the Ward.

### Commentary on results:

The Ward has a good variety of greenspace including a large Country Park and five play areas, one of which is up to LEAP standard. Other facilities include football pitches, a bowling green, a multi use games area, and nature areas including Davyhulme Millennium nature reserve. The Ward is sufficient in accessible greenspace by 17.85 hectares.

### Characteristics, facts and figures

Population	9633
Area of Ward (hectares)	435.34
Density of population (people per hectare)	22
Density of population in Trafford	Low (1 <sup>st</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	19.8

### Wellacre Primary School planting daffodils in Woodsend Park

## Flixton

---

### Description:

Flixton is bounded by the Mersey Valley and the River Mersey to the south and is traversed by the Manchester to Liverpool railway line. Its population is in concentrated areas in the northern half of the Ward, other areas are generally open and include two golf courses (William Wroe and Flixton Golf Course).

### Commentary on results:

There are two play areas within the Ward, one of which is up to LEAP standard. The Ward contains other facilities for football, cricket, bowls and tennis. In addition there are countryside sites within the Ward that form part of the proposed Wellacre Country Park and the Mersey Valley to the south east of the Ward. Other facilities include a model railway within Abbotsfield Park and sensory and ornamental gardens at Flixton Park. The Ward is sufficient in greenspace with 17.05 hectares above the standard.

### Characteristics, facts and figures

Population	10762
Area of Ward (hectares)	400.91
Density of population (people per hectare)	27
Density of population in Trafford	Below average (2 <sup>nd</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	19.1
Density of under 16s in Trafford	Low (1 <sup>st</sup> quartile)

Ideal Area of LANGsp	21.52 ha
Degree of Sufficiency/Deficiency	Very Sufficient
Rank in Trafford	15/21

## Walled Garden, Flixton Park

## Gorse Hill

---

### Description:

Gorse Hill is the northernmost Ward in Trafford, bounded by the Manchester Ship Canal. It is the third largest Ward, a large proportion of which is made up of Trafford Park Industrial Estate. The Bridgewater Canal runs through the site and the majority of population are located within the southern part of the Ward. Gorse Hill is a regeneration area and is one of the top 20 percent most deprived areas in England.

### Commentary on results:

The Ward has six areas of greenspace, including two parks and Trafford Ecology Park. The Ward is well served by seven play areas, including one of only two NEAP standard play areas in the Borough, along with two LEAP standard play areas. This is important in a Ward with a high percentage of under sixteen year olds. Other facilities include multi use games areas, football pitches and facilities for tennis. Trafford Ecology Park contains a variety of facilities include a bird hide, sensory garden, nature trails, provision for anglers and a training and meeting venue. The Ward is 0.74 hectares deficient in greenspace.

### Characteristics, facts and figures

Population	10092
Area of Ward (hectares)	880.86

## Hale Barns

---

### Description:

Hale Barns lies at the southern tip of the Borough. It is bounded to the east by the M56, to the south by the River Bollin, by the residential areas of Altrincham to the west and Newhall Green to the north. The Ward contains a large amount of agricultural land including a private golf course. There is also a number of private sports clubs within the Ward providing facilities for tennis, bowling and football. It is an affluent Ward in the top 10% wealthiest areas in England.

### Commentary on results:

The Ward contains seven areas of greenspace, including a park with facilities for tennis and football, areas of woodland and other smaller areas of open space. There are three play areas in the Ward with two currently up to LEAP standard. The Ward has a very low population density and is deficient in greenspace by 5.35 hectares. In addition there are proposals within the Unitary Development Plan to create a country park which would not only provide local residents with further greenspace but also cater for residents throughout the Borough.

### Characteristics, facts and figures

Population	9555
Area of Ward (hectares)	834.98
Density of population (people per hectare)	11
Density of population in Trafford	Low (1 <sup>st</sup> quartile)
% of population under 16 (national average)	20.2

Halecroft Park

## Hale Central

---

### Description:

Hale Central is a densely populated Ward located to the south west of Altrincham town centre. It is bounded to the south by the River Bollin and to the north by Altrincham Golf Course and by the residential areas of Hale Barns and Bowdon to the east and west.

### Commentary on results:

The Ward has three areas of accessible greenspace. The facilities within the parks include provision for bowling, tennis and football. The Ward has four play areas, two which are to LEAP standard. However the distribution of greenspace in the Ward is uneven and the two largest areas of greenspace are located in the north part of the Ward and separated from the main residential area of Hale by the main A538 road. The Ward is 3.65 hectares deficient in greenspace putting it in the bottom third of parks based on their sufficiency-deficiency score.

### Characteristics, facts and figures

Population	9098
Area of Ward (hectares)	261.36
Density of population (people per hectare)	35
Density of population in Trafford	Above average (3 <sup>rd</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	20.3
Density of under 16s in Trafford	Above average (3 <sup>rd</sup> quartile)

### Junior play area at Stamford Park

# Longford

---

## Description:

Longford is a densely populated urban area in north east of the Borough. To the east are residential areas within Manchester, the River Mersey and Mersey Valley are to the south and the residential areas of Old Trafford and Gorse Hill are to the north and west. Within the Ward is one of the five local cemeteries, and the world famous Lancashire Cricket Ground.

## Commentary on results:

Longford Ward has a variety of greenspace that includes two woodlands, two parks and a large recreation ground. The largest park within the Borough, Longford Park, is located within the Ward along with the largest area for outdoors sports facilities at Turn Moss playing fields. There are six play areas of which one is up to LEAP standard. Other facilities within the Ward include those for football and rugby, bowling, tennis, an athletics track and multi use games areas and a pet's corner. The Ward is in the top quarter of Wards for sufficiency of greenspace with 60.8 hectares above the standard. This is accounted for by the large size of two of the greenspaces.

## Characteristics, facts and figures

Population	11273
Area of Ward (hectares)	347.60
Density of population (people per hectare)	32
Density of population in Trafford	Above average (3 <sup>rd</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	21
Density of under 16s in Trafford	Above average (3 <sup>rd</sup> quartile)

## Audit of current provision of accessible natural greenspace

Name of site	Code	Area (ha)	Function
Longford Park	P75Lon	22.00	Borough Park

Ideal Area of LANGsp	22.55 ha
Degree of Sufficiency/Deficiency	Very sufficient
Rank in Trafford	19/21

## Seymour Park, Party in the Park 2003

## Priory

---

### Description:

Priory Ward is bounded to the north by the River Mersey and to the east by the residential areas of Sale Moor, Ashton on Mersey lies to the west and Brooklands to the south. The M60 motorway, A56 Chester Road and the Bridgewater Canal all run through the Ward.

### Commentary on results:

The Ward has a variety of interesting greenspaces. These include Sale Water Park and Priory Gardens, which provide a number of facilities including Trafford Water Sports Centre, Mersey Valley Visitor Centre and areas for informal walking, cycling and horse riding. These facilities serve the local community but also attract visitors from further afield. Within the Ward there are four play areas with only one not up to LEAP standard. Other facilities in the ward include provision for tennis, bowling, skating, football, an athletics track and in addition Walkden Gardens a peaceful hideaway known locally as 'The Maze' because it consists of several 'rooms' leading off from the main ornamental grass walkway.

Despite the Wards fairly high population density it has a very low percentage of its population under the age of 16. The two large areas of greenspace in the north of the Ward result in the Ward being very sufficient in greenspace.

### Characteristics, facts and figures

Population	9424
Area of Ward (hectares)	322.68
Density of population (people per hectare)	29
Density of population in Trafford	Above average (3 <sup>rd</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	15.3
Density of under 16s in Trafford	Low (1 <sup>st</sup> quartile)

### Audit of current provision of accessible natural greenspaces

Ideal Area of LANGsp	18.85 ha
Degree of Sufficiency/Deficiency	Very sufficient
Rank in Trafford	20/21

#### Sale Water Park

## Sale Moor

---

### Description:

Sale Moor is situated to the east of the Borough and shares a large part of its boundary with Manchester. Its northern boundary is the River Mersey and Sale Golf Course. The remaining boundaries are adjacent to residential areas on Northern Moor in Manchester and Sale. The M60 motorway runs through the Ward and separates the main residential area from Sale Golf Course and the Mersey Valley

### Commentary on results:

The Ward contains four greenspaces. In addition, one third of Worthington Park falls within the ward and is the only accessible park. It provides facilities for bowling, football, and skating and informal recreation. There are four play areas in the Ward with the two in Worthington Park up to LEAP standard. The Ward is very deficient in greenspace being the lowest in the Borough with 15.61 hectares of new space required to meet the standard. The Wards main residential area is concentrated into half of the Ward area, which emphasises the density of that particular population. However there are two significant large greenspace areas in the neighbouring Ward of Priory.

### Characteristics, facts and figures

Population	9902
Area of Ward (hectares)	283.23
Density of population (people per hectare)	35
Density of population in Trafford	Above average (3 <sup>rd</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	19.9
Density of under 16s in Trafford	Below average (2 <sup>nd</sup> quartile)

### Event day at Worthington Park, Sale

## St Marys

---

### Description:

The Ward is densely populated and suburban in character. The eastern boundary is the A56 (Chester Road) and the western boundary is Dainwell Woods, Carrington Moss and the residential areas of Ashton on Mersey and Broadheath lie to the south.

### Commentary on results:

There are six greenspace areas within the Ward making it sufficient by 3.58 hectares. These include woodlands, recreation grounds and a park. There are four play areas within the Ward, with one currently up to LEAP standard. Facilities within the Ward include provision for bowling, tennis, multi use games areas, football and rugby.

### Characteristics, facts and figures

Population	11263
Area of Ward (hectares)	266.612
Density of population (people per hectare)	42
Density of population in Trafford	High (4 <sup>th</sup> quartile)
% of population under 16 (national average)	20.2

### Sale West open space

## Stretford

---

### Description:

Stretford is a densely populated Ward. The M60 motorway and Bridgewater Canal run through the Ward. The River Mersey is the southern boundary and the residential areas of Stretford and Urmston are adjacent boundaries. The Ward contains one of the four shopping centres, Stretford town centre within the north eastern part of the Ward. A large majority of the Ward is greenbelt land and forms part of the Mersey Valley.

### Commentary on results:

There are four areas of greenspace within the Ward. These include a park and woodland areas. There are four play areas within the Ward, three of which are up to LEAP standard. Other facilities in the Ward include provision for bowling, tennis and football. The Ward is very deficient in greenspace being 5.26 hectares below the standard. Within the Ward is the former Lesley Road landfill site, Stretford Meadows has not been included in the accessibility figures as it is not formally accessible by members of the public. The area has been included in The Core Strategy as a Strategic Site to formally develop the area for informal recreation, which would reduce the deficiency.

### Characteristics, facts and figures

Population	9814
Area of Ward (hectares)	322.13
Density of population (people per hectare)	30
Density of population in Trafford	Above average (3 <sup>rd</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	18.4

# Timperley

---

## Description:

Timperley is primarily a residential area in the south of the Borough. It is bounded to the west by the Bridgewater Canal and to the north by Baguley Brook. To the east are residential areas and to the south the main A560 road and Altrincham Golf Course. Within the Ward is the busy Timperley district shopping centre.

## Commentary on results:

The Ward contains four small areas of greenspace. There are four play areas one of which is up to a LEAP standard. Other facilities within the Ward include bowling, an athletics track, and football pitches. Timperley is a very densely populated area and falls below the accessible greenspace standard by 14.2 hectares making it the third most deficient ward in the Borough. It is a small Ward in area and has good access to neighbouring Wards on three sides. The large areas of greenspace at Fairywell Brook and Sylvan Avenue recreation ground are accessible and close by.

## Characteristics, facts and figures

Population	10381
Area of Ward (hectares)	206.10
Density of population (people per hectare)	50
Density of population in Trafford	High (4 <sup>th</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16 (in ward)	20

## Urmston

---

### Description:

Urmston is situated in the heart of the north part of the Borough. It is split into three residential areas by the M60 motorway and a railway line. The Mersey Valley and the River Mersey form the southern boundary, with the residential areas of Stretford to the east and Flixton to the west. Within the Ward at Urmston is one of the five cemeteries of the Borough, and Urmston shopping centre.

### Commentary on results:

The Ward has five areas of greenspace, including three parks, a Country Park and informal open land. There are three play areas of which two are up to LEAP standard. Other facilities within the Ward include provision for bowling, tennis, a model railway line and part of the Trans Pennine Trail and the Co-operative Bank Woodland in Urmston Meadows.

### Characteristics, facts and figures

Population	10035
Area of Ward (hectares)	370.15
Density of population (people per hectare)	27
Density of population in Trafford	Below average (2 <sup>nd</sup> quartile)
% of population under 16 (national average)	20.2
% of population under 16	19.6

### Urmston Meadows

## Village

---

### Description:

Village Ward is on the eastern boundary of the Borough adjoining Manchester along Brooklands Road. To the south are Timperley wedge and the Bollin Valley and to the west the residential area of Timperley. Within the Ward is the regeneration area of Broomwood, which contains a variety of greenspaces including Brookes Drive which runs from the A560 roundabout through the Ward and forms part of a linear walkway and cycleway to link through to Davenport Green.

### Commentary on results:

The Ward has nine areas of greenspace made up of a good variety of woodland, parks and recreation grounds. There are four play areas with two currently up to LEAP standard. Other facilities within the Ward include five-a-side artificial turf pitches, football pitches and local woodland areas. The Ward is sufficient in greenspace with 9.2 hectares over the recommended standard. However due to the narrow linear shape of the Ward the largest area of greenspace, Beech Avenue, is not easily accessible to residents in the south of the Ward. This is primarily due to busy main roads cutting across the Ward several times.

### Characteristics, facts and figures

Population	10564
Area of Ward (hectares)	217.25
Density of population (people per hectare)	49
Density of population in Trafford	High (4 <sup>th</sup> quartile)
